Sorry for the confusion. Yes. OW assigned it to us a few weeks ago and then Cari asked that I have OW take it back this morning. I think the EJ aspect will need to be determined by Larry and OW management.

We were trying to get the attached letter out the door before Jan 20, but we were not able. It was designed to be signed by OW and OECA. The LGAC, US Conf of Mayors, NaCo and league of cities will continue to press us to stick with the FCA that was finalized under the previous Administration. In terms of the response to LGAC and to the other groups, I think we should wait for direction. Also, don't be surprised if US conf of Mayors and others send the Biden Admin a new letter asking to keep the FCA."
